Using a working set limited to 1500 pages and 102 pages of data storage (excluding image)

Total number object records read (both passes):   1147
     of which 520 were in libraries and 30 were DEBUG data records containing 956 bytes

Number of modules extracted explicitly   = 16
     with 16 extracted to resolve undefined symbols

105 library searches were for symbols not in the library searched

A total of 25 global symbol table records was written
